parking management

India is your next destination

India has achieved significant milestones in infrastructure development, including the inauguration of the world's longest highway tunnel, the Atal Tunnel, Mumbai Trans harbour link the longest sea bridge in India, and the world's 12th longest sea bridge. the construction of the world's highest railway bridge, the Chenab Bridge, India's first underwater transportation tunnel in kolkata . Additionally, India has set records by unveiling iconic landmarks like the Statue of Unity – the world's tallest statue and embarked on transformative projects like the Zojila Tunnel, Asia's longest tunnel, for all-weather connectivity in Ladakh

India's traffic industry is projected to grow at a CAGR of over 8% during 2024-2030.

With the increasing urbanization and burgeoning population, traffic management solutions are in high demand across the nation.

Investment opportunities abound in smart cities and sustainable transportation infrastructure.

The Government of India has allocated about \$1.4 Tn for infrastructure to be invested until 2025.

New contracts expected for construction of 10,500 km roads in the current fiscal : 2023-24

About the expo

Since a decade, the TrafficInfraTech expo along with Road Infratech & Parking Infratech has been at the forefront of India's infrastructure and mobility revolution showcasing India's emerging role as a leader in traffic/ transport technology, road safety, security, parking management, smart mobility and road construction. The expo is intentionally designed to inspire and encourage technology showcased by mobility solution providers, facilitate knowledge exchange and open up networking opportunities for mobility experts and decision makers from the Government departments and private organisations.

Traffic InfraTech

TrafficInfraTech Expo is the premier show in Asia creating a unique platform that converges all the latest products, technologies and solutions across the verticals of traffic management & analysis, transport systems, security, tolling, road safety etc. The expo has been successfully connecting traffic and mobility professionals from all over the globe- from solution providers to solution seekers across Government departments, enforcement authorities, local urban bodies, infrastructure developers, smart city developers and project consultants.

Exhibitor Profile

ITS/TELEMATICS

- AI/ IOT
- Highway Traffic Management Systems (HTMS)
- Traffic Signaling Systems
- Traffic Information / Control Systems / Data Collection / Survey & Analysis
- Automatic Number Plate Recognition (ANPR)/ Vehicle Classification & Counting
- VMS/Digital Signage/Video Walls
- Video Traffic Surveillance and Monitoring Equipment
- Radar Detectors
- Vehicle Tracking, Tracing and Monitoring Systems
- Mapping and Geographic Information Systems (GIS)

Fare And Toll

- Toll collection system
- Vehicle Weighing Systems & Weigh-in Motion
- Traffic Data Collection Systems
- Toll Automation / RFID / Sensors
- Automatic Vehicle Classification
- Signaling
- System Integrator

Road Safety

- ADAS
- Alcohol Breath Analyser
- Speed Detectors / Guns / Warning systems
- Traffic Signs
- Navigation Lights
- Traffic Lights
- Road Hazard Warning Lights
- Lane Indicators
- Emergency Vehicle
- Emergency / Disaster Management Systems
- In vehicle safety solutions
- Weather & Pollution Monitoring Systems
- Tunnel safety solutions

Security & Surveillance

- City Surveillance Systems
- Traffic Cameras & CCTV
- Video walls in Control room

Parking InfraTech

India's Smart Parking Market is expected to reach USD 593.63 Mn by 2028, growing at a CAGR of 11.11%. The ever increasing rise in the number of vehicles coupled with the shortage in parking space - both on road & off road- have led to the demand for solutions that will optimize parking space usage. Addressing this demand - The Parking InfraTech Expo is an exclusive B2B platform in India that caters to the future technologies in parking management, automation and digitalization. The expo brings together technology providers and operators to get connected with city authorities, policy makers, town planners, infrastructure developers, builders, architects and other stakeholders to address the Future of Parking in India.

Exhibitor Profile

- Parking Zone / Structure Design
- Multi Level Parking
- Parking Management / Guidance Systems
- Parking Enforcement Systems
- Parking Access Control / Sensors / Systems
- Automated Payment / Ticketing Systems
- Safety / Security Technologies
- Automatic Number Plate Recognition (ANPR)
- Parking Apps
- Automatic Vehicle Identification

Road InfraTech

In tune with the Indian Government’s thrust to fast track capacity building and connectivity across India, the Road InfraTech Expo will focus on development, maintenance and safety aspects that will impact the future of road infrastructure and construction in India using latest innovations in design, materials and technologies that address aspects of urban planning, design and architecture of green highways, infra projects for roads, tunnels and bridges etc.

The expo creates an opportunity that brings together stakeholders from infrastructure companies, highway and road development authorities and organisations, road contractors, road consultants, smart city officials, road government associations and bodies as well as municipal corporations, road safety professionals etc, all under one roof.

Exhibitor Profile

Road Safety

- Road Signs
- Crash Barriers / Guardrails
- Noise Barriers
- Road Marking Equipment & Paints
- Traffic Reflective Signages
- Speed Bumps
- Road Blockers
- Bollards
- Cones
- Solar Road Studs

Pavement Materials

- Treated Soil
- Soil additives, binders, stabilizers
- Stone Aggregators
- Bituminous & Asphalt Materials
- Cement, Cement Mortar and Cement Concrete
- Alternative flexible pavement materials
- Recycled materials

Infrastructure

- Roadside / Wayside / Highway Amenities
- Street Lighting
- Bus Shelters, Parking Shelters

Support Services

- Project/ Geospatial assessment
- Soil Testing
- Auditing

Exhibitors

“Skytoll inherits a rich legacy from its European parent company. For the past 15 years, Skytoll has managed GNSS Electronic Toll Collection (ETC) systems for Slovakia, Czech Republic, Slovenia, and is now expanding its services to Croatia. GNSS ETC represents a game-changing innovation that will unfold in the coming years. Having participated in India for the first time, we see immense opportunities to collaborate with stakeholders, including system integrators, techservice providers, and startups. The engagements we had with visitors and exhibitors at the expo have been very encouraging.

DUSHYANT DESHPANDE,
Director - Skytoll Pvt Ltd

“We have been participating in the TrafficInfraTech Expo for nearly a decade. This platform stands out for its focus on innovation, allowing us to learn about new launches and connect directly with our clients and suppliers. This year, we showcased our patented TL Boosters, introduced in 2023, designed to optimize vehicle queue management at toll plazas by enabling seamless vehicle detection, tailgating prevention, and directional identification. This exhibition remains a vital platform for the ITS industry. With Messe Frankfurt now on board, we foresee even greater growth and reach for the show.”

Sandeep Pawar,
CEO and MD, Kent IT

“As a networking company with a 35-year legacy in India, we specialize in switching, wireless communication, and more. We have also ventured into Machine-to-Machine (M2M) communication, offering products like modems, routers, pod devices, IoT devices, and transit routers. At the expo, we connected with relevant stakeholders and explored ample opportunities facilitated by NHAI, one of the supporting authorities. We were pleased to receive significant interest and visits at our stall.”

PANKAJ SHARMA,
GM – Solution Consulting & Support, D-Link India Limited

“Safety and speed are often at odds, making advanced technologies like AI and sophisticated cameras indispensable for balancing these priorities effectively. I observed several exhibitors presenting innovative solutions at the expo. As a consultant, I strongly advocate for adopting tolling systems, advanced cameras, ATMS, and other cutting-edge technologies showcased here. With the expansion of highways and smart cities, I am confident that the expo will witness increased participation from both visitors and exhibitors in the future.”

ASHISH AGARWAL,
Highway Engineer, AECOM

Visitor Profile

- Private
- Infrastructure and Construction Companies
 - Road Concessionaires
 - Smart City Consultants / Implementors
 - Turnkey Project Consultants
 - Engineering Consultants
 - Traffic Consultants & Firms
 - Road / Road Construction / Bridge and Tunnel / Civil Contractors
 - System Integrators
 - OEM Suppliers
 - Logistics Companies
 - Fleet Operators
 - Academia / Research & Training / Architectural and Planning
 - Institutes
 - Financial Institutions
 - NGOs
 - Companies looking for joint ventures / partners
 - Architects / Urban Planners
 - Road Designers
 - Structural Engineers
 - Landscape Architects
 - Bridge & Tunnel Design Consultants
 - Professional Associations and Trade Bodies
 - Consultant / Engineers / Safety Auditing Companies
 - Builders & Developers
 - Parking Management Contractors
 - Parking Consultants & Firms
 - MEP Consultants
 - Malls / Multiplexes
 - Hotels / Hospitals
 - Channel Partners & Distributors

- Government
- Ministry of Road Transport and Highways
 - Ministry of Housing & Urban Affairs
 - Ministry of Electronics and Information Technology
 - Ministry of Heavy Industries
 - National Highway Authority of India
 - Indian Highway Management Company Limited
 - National Highways Logistics Management Ltd
 - Municipal Corporations
 - Public Works Departments
 - City Development Authorities
 - Smart Cities
 - Traffic Police
 - Railways
 - Metro / MonoRail
 - State Road Transport Undertakings
 - Airport Authority of India
 - State Road Development Corporations
 - Enforcement Authorities

Attract The Right Buyers With Our Extensive Promotions

Digital and Print media

- Adverts in B2B publications and their digital channels
- Extensive press coverage

Online & Mobile Promotions

- E-newsletter
- SMS
- WhatsApp

Social Media

- Reach an audience of over 1 million
- Be a part of daily show updates and news
- Focused partner posts like exclusive launches and exhibitor interviews

International Campaigns

- Hosting buyers program.
- Inviting international trade buyers.

Mobile Marketing

- Exhibitor marketing toolbox
- An indispensable tool that helps you reach your customers with unique registration invite link, personalized marketing collaterals for whatsapp, emailers and social media

Press Releases

- Extensive press coverage in mainline and regional media with latest show updates and product launches

About the organisers

About VIS Group

For over two decades, the VIS Group has stood as a trailblazing force in the realm of trade show organization and publishing, reshaping the Indian landscape with innovation and flair since the dawn of the millennium. With a rich legacy spanning 23 years, the organization has not only orchestrated unforgettable events but has also ushered in transformative initiatives that touch the lives of ordinary individuals through forward-looking approaches, particularly emphasizing the dynamic world of B2B industries. Serving India with Pride, the VIS Group continues to craft a narrative of positive change and unparalleled impact.

About Messe Frankfurt India

The Messe Frankfurt Group is one of the world's leading trade fair, congress and event organizers with their own exhibition grounds. With a workforce of some 2,200* people at its headquarters in Frankfurt am Main and in 28 subsidiaries, it organizes events around the world. We serve customers' business interests efficiently within the framework of our Fairs & Events, Locations and Services business fields. The wide range of services includes renting exhibition grounds, trade fair construction and marketing personnel and food services.

Messe Frankfurt's vision and strategy is to build trade fairs by concentrating on areas of expertise to create the best and most professional brand name trading platforms for its customers. In many cases, these brand name trade fairs are exported to local markets around the world.
